

MUSEUM OF NATURAL SCIENCES

ARE YOU LOOKING FOR AN EXTRAORDINARY LOCATION FOR YOUR EVENT?

A place out of the ordinary that not only acts as an incentive for the event,
but will also surprise your guests?

A venue that is both practical and special?

The Museum of Natural Sciences might be just the place you are looking for. It is very conveniently located just around the corner of the European Parliament, but also close to various public transports (station, metro, bus), and of course, in the evening we can offer free parking space.

In the Museum you will find our more formal meeting rooms and auditoria for conferences, workshops, seminars and the like, with the necessary equipment and technical services. We can host conferences for up to 150 people.

And for your evening events you will definitely appreciate our Gallery of the Dinosaurs, the Gallery of Evolution and our other exhibition rooms.

Can you imagine your guests sipping their cocktails whilst standing just beside our beautiful collection of Iguanodons? But you can also have them enjoy our Museum treasures in the room 250 years of Natural sciences, from where they can walk on to our terrace with a lovely view on the Park Leopold (and the European Parliament).
