

OUR NEW STREAMING SOLUTIONS

3 STUDIOS, THINK **BIGGER**

The Event Lounge More than a meeting place, has never had a name so appropriated. In order to meet current demands, we have created 3 small studios, already equipped by our technical partner GSP2. All of this, in the same spirit that lives in us: ready to use solutions. They are located in the same large room, which allows you to switch from one speaker group to another very easily.

Because safety is our priority, the Event Lounge has been redesigned to be able to welcome our clients in complete safety, according to government regulations COVID-19.

As such, we have received the **Brussels Health Safety Label**, which guarantees our health protocol.

PRESENTATION DESK

THE SALON

THE DEBAT CORNER
